

## Inspiratory Manual Screen Printing Machine

★Mode of orientation: Trilateral Orientate or Hole Orientate.

★mode of adjustment: manual fine tuning

★The clamp of fixed frame is flexible to fit frames of different size

★the clamping head can be rising and down to fit the printing of different thickness

★five tuning devices to assure the speedy and accurate position.

**features** : adopt stainless steel and alloy steel materials, and the components using top grade electrostatic spray, and high-end electroplating process. Stainless steel surface with aspirator pump, which is suitable for flat topping screen printing, strong suction, easy to operate and accurate positioning, and can be adjusted to up / down, left / right, front / back. It is the best choice for all small and medium-sized printing factories.

▲主要参数 Main Parameters:

设备型号 Model	TX-XQ5060
平台尺寸 Platform size(mm)	500×600mm
最大印刷面积 (mm) Max Printing Size	400×450mm
电源 Power (V/KW)	400w/220v
印刷厚度 Thickness	0-25 mm
